Freemail Header

You are here: WEB.DE > Freemail > Set up child protection

Set up child protection

You wish to change the mail box **<Name>** into a child-protection mailbox. The owner of this mailbox will receive a notification by e-mail shortly. The following steps must then be carried out in order to complete the activation of the child protection:

Step 1:   Help

By clicking on the link found in the notification e-mail, the owner of the mailbox being changed will be directed to the activation site.

Step 2:   Help

The activator key, which only you have, must be entered on the activation site:

Activator key: 72sdhbd

The activator key will also be shown to you in the 'Manage child protection' page in the section named 'Accounts not yet activated with child protection.

Step 3:   Help

After entering the activator key the process is complete and the new child protection mailbox is set-up. This will then be allocated to your mailbox.

Freemail Header
You are here: WEB.DE > Freemail > Set up child protection

Set up child protection

Dear Freemail user,

Unfortunately child protection cannot be set up for the mailbox <Name> because the owner is older than 17 years of age.

If your child entered a false date of birth when registering the mailbox, this must be corrected before child protection can be set up.

The date of birth can be changed under "Extras/Safety/User data" in the child's mailbox.

We will have to come up with something to put in this box. Perhaps ringtones or something else. It should suit specific target groups.

Activate child protection

Dear Freemail user,

On this page you can change your Freemail account **<Name>** to a child-protection account. This account will be allocated to the parent account called **<Name>** and belonging to **<first and second name>**. In order to complete the change, please type in the activator key received by the owner of the parents' account.

| You are here: WEB.DE > Freemail >child protection deactivated |
| **Child protection deactivated** |
| Dear Freemail user,

 The child protection on your mailbox was deactivated because you have reached your 18th birthday. You will now connect to a normal Freemail mailbox and can use all of the functions.

 In addition you have access to the "Unknown" and "Undesirable" folders.
